

SEBASTIAN ARLEY CHIRINOS NEGRÓN

Software Developer

schirinosne@gmail.com | Arequipa, Perú | github.com/BastleyNait | linkedin.com/in/sebastian-arley-chirinos-negron

Summary

Software Developer with over a year of freelance experience delivering full-stack web platforms, POS/CRM systems, and real-time data solutions for production environments. Skilled in React, Next.js, and Python (Flask, Django, FastAPI), with strong database integration experience (PostgreSQL, MongoDB) and hands-on work applying AI/ML to real products. Comfortable owning the full software lifecycle – from requirements and architecture to deployment on Vercel and Google Cloud – while collaborating directly with clients to turn business needs into scalable technical solutions.

Experience

Freelance Software Developer

2024 – Present

Remote / Arequipa, Perú

- Designed, built, and deployed **Boom POS**, a full point-of-sale and CRM system (Next.js, PostgreSQL, Zustand) covering inventory, sales, and client management with a production-ready UI/UX.
- Developed a **cloud-based certificate management system with QR verification** (Flask, Amazon S3, Google Cloud) for GEOTOP, digitizing certificate issuance and validation.
- Delivered end-to-end web platforms – landing pages, admin dashboards, and product catalogs – for local businesses using Next.js and PostgreSQL, deployed to Vercel.
- Managed the complete client lifecycle: requirements gathering, technical proposals, architecture design, development, deployment, and post-launch support.
- Applied AI/ML techniques (edge inference, semantic search, RAG pipelines) to build data-driven features for independent product prototypes.

Projects

Calitop Services

Business website with admin dashboard and product catalog – calitop-services.com | [Repo](#)

- Built and deployed a full production website for a client company, including an admin panel and product catalog, using Next.js and PostgreSQL.

Lo Exacto

Web platform deployed to production – lo-exacto.com | [Repo](#)

- Developed and shipped a production web platform with backend data integration, built with Next.js and PostgreSQL.

Boom POS – Order Management

Independent POS + CRM system – boom-pos.vercel.app | [Repo](#)

- Full-stack point-of-sale and CRM platform with inventory, sales, and client management, built with Next.js, API Routes, Flask, PostgreSQL, and Zustand.

Revolt Laptop

E-commerce catalog and admin panel – revolt-laptops.vercel.app | [Repo](#)

- Built a complete e-commerce catalog and admin panel for a refurbished-laptop business, covering product listings through order management, using Next.js and PostgreSQL.

Education

Systems Engineering

Universidad Nacional de San Agustín de Arequipa (UNSA)

Technical Skills

Languages & Frontend: JavaScript, TypeScript, React, Next.js, Zustand, Tailwind CSS, Bootstrap

Backend: Node.js, Python, FastAPI, Flask, Django, REST APIs, GraphQL

Databases: PostgreSQL, MongoDB, Vector Databases

Cloud & DevOps: Docker, Google Cloud, AWS, CI/CD, Vercel

AI / ML & Data: TensorFlow Lite, PyTorch, Pandas, NumPy, Semantic Search / RAG

Practices: Agile / Scrum, Software Architecture & Design Patterns, Unit/Integration/E2E Testing, Requirements Engineering, Security Fundamentals
